

Evolutionary Morphology Seminar Series
Fall Quarter 2014
Henry Hinds Laboratory, University of Chicago
5734 S. Ellis Ave., Room 176
Thursdays at 7:30 PM

October 9, 2014

NICHOLAS J. MATZKE

National Institute of Mathematical and Biological Synthesis

University of Tennessee, Knoxville

“Model Selection in Historical Biogeography: When is Founder-Event Speciation Important?”

October 16, 2014

BERT HÖLLDOBLER

Arizona State University

“Communication in Ant Societies: Function and Evolution of Multimodal Signals”

October 23, 2014

JENNY BOUGHMAN

Michigan State University

“Diversifying Selection on Morphology and Behavior in Sticklebacks”

October 30, 2014

MAUREEN L. COLEMAN

University of Chicago

“Fine-scale Evolution in Bacteria: Patterns and Processes”

November 6, 2014

NO SEMINAR

November 13, 2014

ROGER HANLON

Marine Biological Laboratory

TBD

November 20, 2014

ANNE YODER

Duke University Primate Center

“Madagascar’s mouse lemurs as a model system for investigating speciation, gene family evolution, and (possibly) Alzheimer’s disease”

November 27, 2014

THANKSGIVING HOLIDAY – NO SEMINAR

December 4, 2014

DOUGLAS H. ERWIN

Smithsonian Institution

“A Conceptual Framework for Evolutionary Novelty and Innovation”

Additional details posted on [UChicago myBSD Calendar](#) Events.
