

Evolutionary Morphology Seminar Series
Winter Quarter 2014
Henry Hinds Laboratory, University of Chicago
5734 S. Ellis Ave., Room 176
Thursdays at 7:30 PM

January 16, 2014

JACK GILBERT
Argonne National Laboratory
“The Home, Human and Hospital Microbiome Project”

January 23, 2014

FRANK FISH
West Chester University
“Biomimetic applications from the natural technologies of whales for efficient propulsion”

January 30, 2014

GRAHAM SLATER
Smithsonian Institution
“Phylogenetic approaches to measuring tempo and mode in evolutionary radiations”

February 6, 2014

JOHN NOVEMBRE
University of Chicago
“Addressing challenges for population genetic inference from next-generation sequencing”

February 13, 2014

STEPHEN GATESY
Brown University
“Looking inside (and under) theropod dinosaur locomotion”

February 20, 2014

Recruitment Week Seminar
MARCUS KRONFORST and VINCENT LYNCH
University of Chicago
TBD

February 27, 2014

ROSEMARY GILLESPIE
University of California - Berkeley
“Community assembly and adaptive radiation: Insights from the Hawaiian Island chronology”

March 6, 2014

JONATHAN DAVIES
McGill University
“Losing history: how extinctions prune the tree-of-life”

Additional details posted on [UChicago myBSD Calendar](#) Events.
