

PROJECT NOTIFICATION

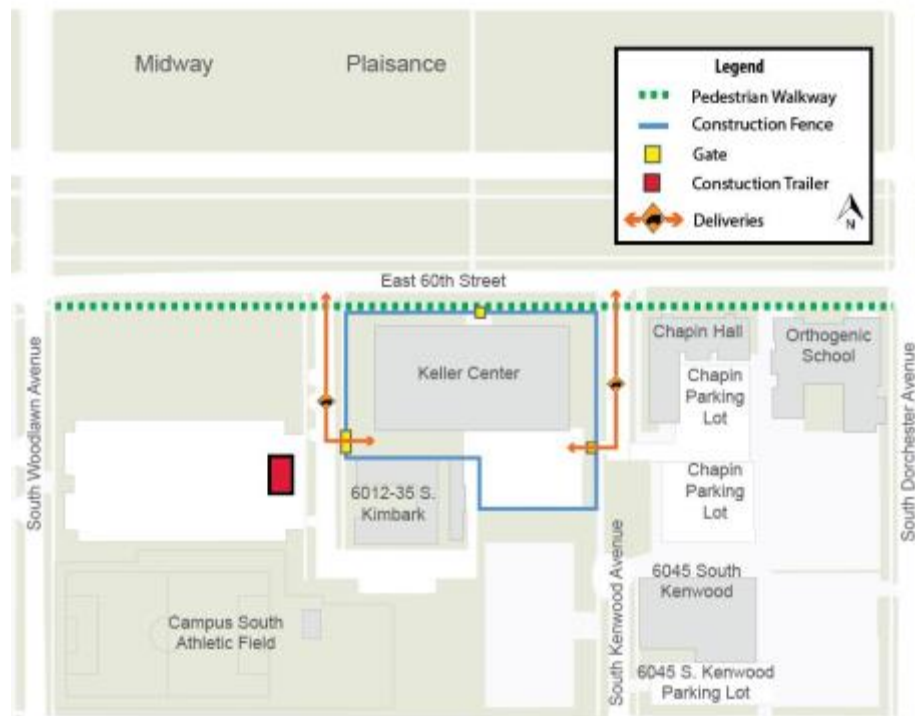

DATE: March 31, 2017

RE: Keller Center-1307 East 60th Street: adaptive reuse

Construction activity began this week at 1307 East 60th Street. Please see the below graphic showing the work site.

The campus community can expect the following:

- A construction fence will be installed prior to start of construction.
- The sidewalk along the south side of 60th Street will close periodically to accommodate construction.
- Traffic lanes will remain open along 60th Street, and traffic flaggers will assist vehicle traffic.
- Work will be noisy at times, and construction crews will be on site daily; weekend work will be scheduled, as needed.
- Construction updates will be provided before significant impactful activities occur.
- The planned completion date for the building renovation is December 2018.

Please direct questions to Angela Knoble, project manager at aknoble@uchicago.edu or 773.251.0008, or Larry Blouin, executive director at lblouin@uchicago.edu or 773.230.3261.

Thank you for your patience during this work.
