

LEGEND

- Asbestos materials are present in this building. Submit an Asbestos Request Form prior to any renovation/repair that may disturb building materials or report damage of suspect material.
- Substantial renovations occurred and all accessible asbestos was abated. Material may be hidden in wall cavities. Submit an Asbestos Request Form prior to a renovation.
- Newer buildings (Post 1990) - Specifications required installation of non-asbestos products
- Contact the Medical Center's Environmental Health and Safety Office for asbestos records on these buildings (5-SAFE)

Residential Properties, Commercial Real Estate, and the Steam Tunnels are not represented on this map. Contact EHS for more information.
