

Dear All,

We are pleased to have invited Jeanne Century, Director of Outlier Research and Evaluation at UChicago STEM Education and Research Associate Professor at the University of Chicago, to speak at a public lecture on **“What is Quality STEM Education and What is its Importance for Our Future?”** on July 15.

The public talk will be held at **One Island East, Quarry Bay** and everyone is welcome. Please spread the news and invite your friends and colleague who may be interested to join.

Please see the poster below or click [here](#) for more details and registration.

With regards,  
Kitty Chong  
Senior Director

What is STEM Education really about? It's definitely not just about the topics of science, technology, engineering and mathematics but also about the ways instruction is done. Come and join us at the public lecture by Jeanne Century and learn about STEM education in the U.S. now and why it is important for our children and the future.
