

Stefanie MANACK

Manager

***Department of Interventional Radiology
The University of Chicago***

Stefanie earned an Associate in Applied Science – Medical Imaging in 2004. She has worked as an Interventional Technologist as well as a Mammographer, and holds certifications in both modalities. After earning her Bachelor's degree in Leadership and Organization Behavior in 2013, she transitioned from Northwestern Memorial Hospital to a management role at the University of Chicago Medicine. She currently serves as the Manager of the Department of Interventional Radiology. Among her many responsibilities are Patient Safety and Quality Metrics for the department. Stefanie has lectured at the local, state and regional level on a variety of topics including Interventional Radiology, Employee Engagement, and Leadership and Professional Development. Stefanie is also the co-founder of the Chicago chapter of AVIR. She will earn her Master's Degree in August and is looking forward to expanding her professional scope.
