How Surgeons Influenced Medical Discourse about Death and Dying  
Dan Brauner, MD, University of Chicago

April 8 (Goldblatt Lobby, H-103)  
The Rights of Parents and Children in Medical Decision Making  
Emily Buss, JD, University of Chicago

April 15 (Goldblatt Lobby, H-103)  
The World Is Not That: Ethical Considerations Regarding Randomized Controlled Trials and Transcultural Medicine  
Elizabeth Davenport, PhD, University of Chicago

April 22 (Goldblatt Lobby, H-103)  
Surgeons, Patients, and Surgical "Progress"  
Peter Angelos, MD, PhD, University of Chicago

April 29 (Goldblatt Lobby, H-103)  
What Happens When Genotype Doesn't Equal Phenotype?: Ethical Implications of Fragile X Screening  
Kruti Acharya, MD, University of Chicago

May 6 (Goldblatt Lobby, H-103)  
Consent Issues in Transplantation  
J. Richard Thistlethwaite Jr., MD, PhD, University of Chicago

May 13 (Goldblatt Lobby, H-103)  
Applying Benchmarks of Fairness to Urban Health Reforms  
Colleen Grogan, PhD, University of Chicago

May 20 (Dora De Lee Hall, L-168)  
Fragile X: Some Ethical and Policy Questions about Genetic Testing  
Harold Pollack, PhD, University of Chicago

About the Clinical Ethics Seminar Series

This interdisciplinary seminar in clinical medical ethics has met each year since 1981 when Mark Siegler and Richard Epstein organized a year-long program on Bad Outcomes after Medical Innovation. The seminar for 2008-2009 will focus on ethical and policy issues relating to doctors, patients, and clinical issues. We have invited many local speakers, both from the University and neighboring Chicago institutions. The speakers represent a wide range of academic specialties including philosophy, economics, law, public policy, and medicine.
