SECTION 4. FIRST AID MEASURES

First aid procedures

Inhalation: If inhaled, remove to fresh air. If breathing is difficult, give oxygen. If symptoms persist, call a physician.

Skin contact: Wash off immediately with soap and plenty of water while removing all contaminated clothes and shoes. Get medical attention if irritation develops and persists.

Eye contact: Remove contact lenses. Flush eyes with water at least 15 minutes. Get medical attention if eye irritation develops or persists.

Ingestion: Keep respiratory tract clear. If conscious, drink plenty of water. Never give anything by mouth to an unconscious person.
Obtain medical attention.

SECTION 5. FIREFIGHTING MEASURES

Flammable properties
Flash point : 120 °F (49 °C)

Fire fighting
Suitable extinguishing media : Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Further information : In the event of fire, wear self-contained breathing apparatus. Use personal protective equipment. Cool containers/tanks with water spray.

Protective equipment and precautions for firefighters
Specific hazards during firefighting : As the product contains combustible organic components, fire will produce dense black smoke containing hazardous products of combustion (see section 10).

SECTION 6. ACCIDENTAL RELEASE MEASURES

Environmental precautions : Do not allow entry to drains, water courses or soil. Prevent spreading by use of suitable barriers. Local authorities should be advised if significant spillages cannot be contained.
Methods for containment / Methods for cleaning up : Wearing appropriate personal protective equipment, contain spill, ventilate area of spill or leak, remove all sparking devices or ignition sources, collect onto inert absorbent, and place in a suitable container.

SECTION 7. HANDLING AND STORAGE

Handling
Handling : Do not breathe vapours or spray mist. Do not get on skin or clothing.
For personal protection see section 8.
Use only in area provided with appropriate exhaust ventilation.

Advice on protection against fire and explosion:
- Keep away from heat and sources of ignition.
- Take measures to prevent the build up of electrostatic charge.
- Avoid shock and friction.

Storage:
Further information on storage conditions:
- Keep container tightly closed in a dry and well-ventilated place.
- May liberate combustible solvent vapors.
- Store at appropriate temperature. See label for details.
