

Before purchasing filtering face-pieces, please contact Environmental Health and Safety and request a risk assessment.

773.702.9999 or safety@uchicago.edu

The assessment will confirm the contaminant does not exceed permissible exposure limits. We can also offer assistance to ensure proper filter selection.

Employees electing to wear a filtering face-piece must complete a [Voluntary Use Form: Filtering-face Piece](#) before distributing or wearing the personal protective equipment.

Below is a list of recommended filtering face-pieces (N95) based on the nuisance present.

Nuisance	Applications	Brand	Model	Filter	Size	Image
Particulates/mold	Dusty work/mold	3M	8210	N95	Standard	
Particulates/mold	Dusty work/mold	3M	8511	N95	Standard	
Organic Vapors	Working with solvents	Honeywell	14110397	N95	M/L	
Organic Vapors	Working with solvents	Honeywell	14110398	N95	XL	
Organic Vapors, Ozone	Working with solvents	Moldex	2400N95	N95	Standard
