

UChicago Energy Quarterly Newsletter

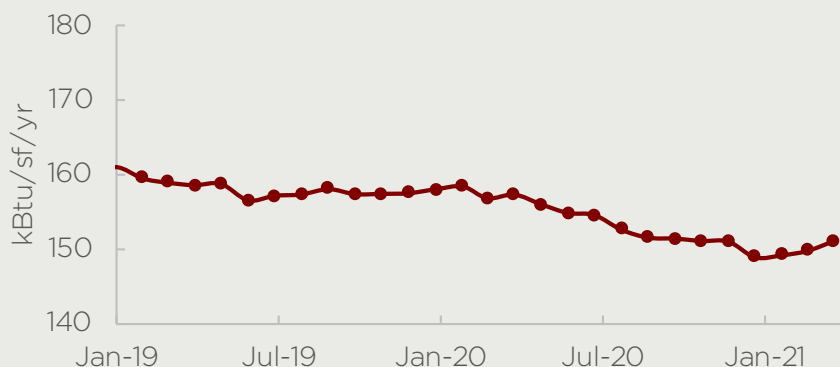

AWARDS AND RECOGNITION

- UChicago is honored to be named a 2021 [ENERGY STAR](#) Partner of the Year in Energy Management, one of only two Universities this year to do so.
- The [retrocommissioning project at GCIS](#) received an Excellence in Engineering award through the ASHRAE Illinois Chapter.

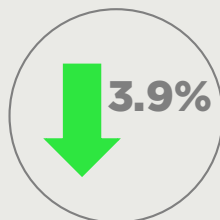

PROJECTS, NEWS, & EVENTS

- Energy consumption data is publicly available through the [energy dashboards](#)
- An [energy savings project at Saieh Hall](#) reduces GHG emissions by 318 metric tons eCO₂ per year
- Learn how to live more sustainably in residence halls using tips [here](#) and [here](#)
- The [campus sustainability map](#) was created to highlight sustainable features around UChicago's Hyde Park campus
- Check out the [virtual tour](#) of one of the campus central utility plants

Campus Energy Use Intensity (EUI)

One Year EUI Change

Cumulative Impact since 2018

| | |
|-----------------------------------|------------|
| Completed Projects | 115 |
| Electric Savings (kWh) | 10,645,000 |
| Steam Savings (klb) | 85,600 |
| CHW Savings (ton-hr) | 2,182,000 |
| Water Savings (gallons) | 2,803,000 |
| GHG Savings (MTeCO ₂) | 12,566 |
