Informational Packet for Students Who Are Quarantined Due to Exposure to COVID-19

wellness.uchicago.edu
Dear Student,

You are receiving this packet of information because you are a close contact of someone who tested positive for COVID-19. We understand having to quarantine can be unsettling. Please know that we are here to support you.

Not only do we want to make sure you are doing well physically, we want to make sure you have the support to tend to your mental wellbeing. UChicago Student Wellness has a variety of services, and we encourage you to reach out to us for support.

**Student Wellness Resources**

**Medical**
- For appointments, call 773.834.WELL or visit my.WellnessPortal. When calling for an appointment or advice, a member of our medical team will discuss your questions or concerns with you. Whenever possible, we will seek to deliver care virtually. If it is necessary to be seen in person, we will do everything we can to arrange an appointment as soon as possible. Please call UChicago Student Wellness first; please do not walk into the clinic without an appointment.
- You can reach our Nurse Advice Line 24/7 by calling 773.834.WELL. Students on the University Student Health Insurance Plan (U-SHIP) may also reach a doctor 24/7 by visiting telehealth4students.com or calling 855-866-0895. Students not on U-SHIP may use this option; however, we encourage you to contact your insurance provider, as many insurance companies offer low- or no-cost telemedicine options.

**Counseling and Mental Health Support**
- Call 773.702.3625 to reach our Therapist-on-Call, who is available 24/7 to discuss your mental health concerns and provide support.
- For general inquiries or to schedule a virtual/Zoom initial appointment with a clinician, call 773.834.WELL.
- Let’s Talk provides easy access to free, informal, and confidential consultations with therapists. No appointment is necessary. In addition, support spaces, groups, and workshops are available to support an array of mental health needs. Further information on mental health options is available in this packet and on wellness.uchicago.edu.

**Wellness Programming**

UChicago Student Wellness is offering a number of programs online, including mindfulness, wellness coaching, and others. Visit wellness.uchicago.edu for an updated list of programs.

We encourage you to reach out to our offices if you have any questions, concerns, or are in need of medical or mental health support.

Sincerely,
Richard McDonough, MD, Senior Medical Director
Meeta Kumar, PhD, Director of Student Counseling
Supportive Mental Health Options

In addition to the full range of counseling and psychiatric services that can be found at wellness.uchicago.edu, these tailored options have been designed to help address the unique challenges students are currently facing. As a reminder, students have 24/7 access to a Therapist-on-Call by calling 773.702.3625.

Let’s Talk

What: Let’s Talk provides easy access to free, informal, and confidential consultations with therapists from UChicago Student Wellness. No appointment is necessary. If you prefer, you do not have to give your name. Let’s Talk is open to all UChicago undergraduate and graduate students.

How: Visit wellness.uchicago.edu/letstalk to learn more.

Support Spaces

When: Dates throughout the quarter

What: Support spaces for DACA/Undocumented Students, LGBTQ+ Students, and Students of Color help students to stay connected and allow them to discuss challenges they’re facing.

How: Visit https://wellness.uchicago.edu/mental-health/ to learn more about our offerings.
Supportive Mental Health Options (Continued)

**Group Therapy**

**When:** Dates throughout the quarter

**What:** Therapy groups create a welcoming, nonjudgmental environment where students can feel comfortable being open and honest about their struggles or current life situations.

**How:** For more information on joining a group, visit [wellness.uchicago.edu/therapygroups](http://wellness.uchicago.edu/therapygroups) or contact Tab Shamsi, PsyD.
Symptoms of Coronavirus (COVID-19)

Know the symptoms of COVID-19, which can include the following:

- Cough, shortness of breath or difficulty breathing
- Fever or chills
- Muscle or body aches
- Vomiting or diarrhea
- New loss of taste or smell

Symptoms can range from mild to severe illness, and appear 2-14 days after you are exposed to the virus that causes COVID-19.

Seek medical care immediately if someone has emergency warning signs of COVID-19.

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion
- Inability to wake or stay awake
- Bluish lips or face

This list is not all possible symptoms. Please call your healthcare provider for any other symptoms that are severe or concerning to you.

cdc.gov/coronavirus
Monitoring Your Temperature

We recommend taking your temperature orally twice a day, once in the morning and once at night. You have been given a digital thermometer; it is important to use it correctly in order to get an accurate temperature.

How to Use and Read an Oral Thermometer

- Refrain from eating or drinking 30 minutes prior to taking your temperature.
- If you prefer your reading in Celsius, set your thermometer to Celsius by holding down the multifunction button for 5 seconds while the thermometer is off. This will allow the thermometer to go from Fahrenheit to Celsius and back.
- Press the "on" button once.
- Place the thermometer under your tongue until you hear a beep.
- Remove the thermometer.
- Record the temperature displayed on the screen in a simple log that lists the date and your temperature at morning and at night.
- Turn off the thermometer and wipe the thermometer with an alcohol wipe. Allow it to air dry.

Why do I have to check my temperature?

A rise in body temperature can signal that your body is fighting an infection. Returning to a more normal temperature for two or more days is a sign that you are recovering.

What is a normal temperature?

The normal body temperature is 98.6°F or 37°C; however, for some people, this may fluctuate one to two degrees Fahrenheit (or half a degree to one degree Celsius).

What is a fever?

The CDC describes a fever as 100.4°F or 38°C or higher. When you have a fever, you may have chills and feel uncomfortable. You can take two tablets of extra-strength Tylenol for a fever every 6 hours while symptoms last. Do not to exceed 6 tablets in 24 hours, unless directed by a doctor.

Please contact UChicago Student Wellness at 773-834-WELL if your temperature reaches 102°F or 38.8°C or higher and it does not go down with Tylenol after 1 hour.

WASH YOUR HANDS

IN ORDER TO KEEP YOURSELF AND THE UCHICAGO COMMUNITY HEALTHY, WASH YOUR HANDS THOROUGHLY AND REGULARLY.

FOLLOW THESE SIMPLE INSTRUCTIONS TO REMOVE GERMS AND AVOID THE SPREAD OF GERMS TO THOSE AROUND YOU.

1. Wet your hands with clean, running water (warm or cold), turn off the tap and apply soap.

2. Lather your hands by running them together with soap. Be sure to lather the backs of your hands, between your fingers, and under your nails.

3. Scrub your hands for at least 20 seconds.

4. Rinse hands well under clean, running water.

5. Dry hands using a clean towel or air dry them.
