Many HMO (Health Maintenance Organization) plans are registered as a student at the University of Chicago until age 26. With U-SHIP, you are covered for as long as you act, health plans provide coverage for dependent children while you are still a student.

If you have coverage while you're away from home or abroad? Many HMO (Health Maintenance Organization) plans and state or federal-based Exchange plans purchased outside Illinois may only allow for emergency care while you are away from home. With U-SHIP, benefits for Covered Medical Services would be covered were you to need care while traveling in the U.S. or abroad.

Deductible/Out-of-Pocket Max: Plans with high deductibles and high annual out-of-pocket maximum mean you could have significant costs to pay towards your medical expenses. U-SHIP low deductibles and low out-of-pocket maximum helps keep your annual costs down.

When considering which insurance plan to purchase, carefully consider your anticipated medical needs and the benefits of each plan. You can find detailed benefits for U-SHIP at www.UCSR.com/uchicago. Consider the deductible, coinsurance, out-of-pocket maximum, copay, prescription drug coverage and provider network, among other benefits.
