## EMPLOYMENT IMPACT

The University of Chicago, including University of Chicago Medicine, is the largest employer on the South Side of Chicago. Combined with its vendor network<sup>1</sup>, the University<sup>2</sup> creates significant impact in the community and regional economy through the employment and personal income of employees.

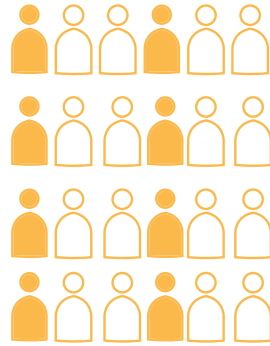

The dollars generated by these employees, which can be attributed to the University's presence, are invested in the community and aid in the economic vibrancy of the mid-South Side and the city of Chicago. UChicago Local aims to create opportunities for job seekers within the mid-South neighborhoods of Douglas, Grand Boulevard, Greater Grand Crossing, Hyde Park, Kenwood, Oakland, South Shore, Washington Park, and Woodlawn.<sup>3</sup> At every level, the University and our vendors seek to hire quality candidates while also advancing local hiring practices.
